EDUCATION

Florida State University

Bachelor of Science in Computer Science | Minor in Applied Mathematics

Tallahassee, FL

May 2027

Honors and Awards: Dean's List, Florida Bright Futures Academic Scholar

Relevant Coursework: LLM Agent Systems, Future Edge Networks, Full Stack Dev C#, Data Structures & Algorithms, Databases

EXPERIENCE

Drafted Labs

February 2026 – Present

Founding Engineer

Remote

- Redesigned core platform architecture and shipped new services while identifying and resolving reliability issues, reducing production incidents and improving scalability across the stack
- Led the Drafted x Snorkel AI partnership, recruiting top engineers across 10+ Universities to build LLM evaluation tasks that stress-test frontier model agent capabilities for production benchmarking
- Engineered Python-based LLM evaluation and data-annotation pipelines supporting 100,000+ vetted contributors from MIT, Stanford, USC, UChicago, and other leading universities.

Florida State University Information Technology Services

September 2026 – Present

Concurrent Internships: AI Research & Network Operations

Tallahassee, FL

AI Research Intern

- Evaluate LLM and generative AI tools and develop Python-based RAG workflows for university use cases, documenting capabilities, limitations, and cost tradeoffs.
- Benchmark model accuracy, latency, and cost to guide deployment decisions and responsible AI adoption.

Network Operations Intern

- Configure and troubleshoot Juniper switches through Junos CLI, managing VLAN assignments, ports, and interface issues across campus infrastructure
- Monitor network health and resolve connectivity issues using Juniper Mist and Marvis while maintaining IP records, switch-port mappings, and technical documentation

Amazon Web Services

March 2026 – Present

Student Builder Campus Leader

Hybrid

- Drove cloud and infrastructure adoption across 500+ students through hands-on labs, workshops, and technical events
- Built Python automation to provision cloud lab environments, cutting manual setup work for Student workshops and events
- Tracked event attendance and engagement metrics to measure program impact and shape future workshop content

Florida State University Department of Computer Science

January 2026 – Present

Undergraduate Systems Administrator

Tallahassee, FL

- Resolved 200+ support tickets covering Linux and Windows Server issues across 300+ managed nodes
- Diagnosed DNS, DHCP, and connectivity failures through log analysis
- Maintained system documentation and configuration standards to support consistent deployment and troubleshooting

PROJECTS

SmartGallery | React, Python, AWS Lambda, S3, DynamoDB, Rekognition, Cognito, API Gateway

Serverless image recognition and management web app · AWS Cloud Club

- Coordinated 40 developers across 5 teams to deliver a serverless AWS application in 10 weeks with zero production failures
- Automated image processing pipelines via Lambda and Rekognition, eliminating 95% of manual tagging overhead at scale

LEADERSHIP & PROFESSIONAL DEVELOPMENT

ColorStack

May 2026 – Present

Vice President of Administration

Tallahassee, FL

- Serve as second-in-command to the chapter president, facilitating presidential responsibilities and stepping in during their absence
- Manage event registration, organizational documentation, and operational planning across the chapter's E-board functions

Association for Computing Machinery

May 2026 – Present

Marketing Outreach Chair

Tallahassee, FL

- Spearhead outreach and marketing campaigns to drive student engagement and grow ACM chapter visibility across FSU
- Collaborate with E-board leadership to coordinate events, communications, and recruitment across the organization

TECHNICAL SKILLS

- Languages & Cloud:** C++, C#, Python, SQL, Java, AWS, Docker, Linux, Git, CI/CD
- Networking & Systems:** TCP/IP, DNS, Linux Kernel, Windows Server, Juniper Junos, Juniper Mist, Marvis
- AI & Tools:** LLM Evaluation, RAG, Multi-Agent Systems, REST APIs, Claude Code, Cursor, n8n, Ollama, Qdrant
