EDUCATION

Florida State University

Bachelor of Science in Computer Science | Minor in Applied Mathematics

Tallahassee, FL

May 2027

Honors and Awards: Dean's List, Florida Bright Futures Academic Scholar, HSF Scholar

Relevant Coursework: LLM Agentic Systems, Operating Systems, Full Stack Dev C#, Data Structures & Algorithms, Databases

EXPERIENCE

Drafted Labs

February 2026 – Present

Founding Engineer

Remote

- Sourced and secured an FSU faculty client for an assistive-tech neural network annotation project, interviewed the professor, scoped and quoted the work, recruited an FSU student team, and delivered the dataset accurately on schedule
- Authored multi-file AI agent evaluation tasks for Snorkel AI's GDPVal++ dataset, engineering realistic professional scenarios, verified golden solutions, and exact-answer rubrics restructured to defeat AutoEval grading exploits
- Led the Drafted × Snorkel AI partnership across Terminus, Starfish, Rudder, and Geranium, recruiting engineers from 10+ universities to develop Python-based LLM evaluation pipelines for a platform of 100,000+ vetted contributors nationwide

Florida State University Information Technology Services

September 2026 – Present

AI Research Intern

Tallahassee, FL

- Deploy vLLM and a custom Hermes agent framework on an NVIDIA DGX Spark cluster in partnership with the Mechanical and Aerospace Engineering lab to automate CFD simulations feeding a live aerospace digital twin platform
- Evaluate emerging LLM and generative AI tools for university research use cases, developing Python-based RAG workflows and documenting capabilities, limitations, and cost tradeoffs to guide responsible adoption decisions

Network Operations Intern

Tallahassee, FL

- Configure and troubleshoot Juniper switches through the Junos CLI, managing VLAN assignments, port configurations, and interface issues across campus-wide network infrastructure supporting the FSU ITS network operations team
- Monitor network health and resolve connectivity issues using Juniper Mist and Marvis, while maintaining accurate IP records, switch-port mappings, and technical documentation for students, faculty, and staff across campus

Amazon Web Services

March 2026 – Present

AWS Student Builder Campus Leader

Hybrid

- Drive cloud and infrastructure adoption across 500+ students by organizing hands-on labs, workshops, and technical events in partnership with AWS to build practical, job-ready cloud computing skills
- Built Python automation to provision cloud lab environments ahead of student workshops, cutting manual setup work so organizers could focus on teaching rather than repetitive environment configuration logistics each session

Florida State University Department of Computer Science

January 2026 – Present

Undergraduate Systems Administrator

Tallahassee, FL

- Resolved 200+ support tickets covering Linux and Windows Server issues across a fleet of 300+ managed nodes, diagnosing root-cause issues to keep campus systems running reliably for thousands of students and staff daily
- Diagnosed DNS, DHCP, and connectivity failures through detailed log analysis, while maintaining system documentation and configuration standards for consistent deployment, onboarding, and troubleshooting across the department

PROJECTS

SmartGallery | React, Python, AWS Lambda, S3, DynamoDB, Rekognition, Cognito, API Gateway

Serverless image recognition and management web app · AWS Cloud Club

- Coordinated 40 developers across 5 teams to deliver a serverless AWS application in 10 weeks with zero production failures
- Automated image processing pipelines via Lambda and Rekognition, eliminating 95% of manual tagging overhead at scale

LEADERSHIP & PROFESSIONAL DEVELOPMENT

ColorStack

May 2026 – Present

Vice President of Administration

Tallahassee, FL

- Serve as second-in-command to the chapter president, facilitating presidential responsibilities and stepping in during their absence
- Manage event registration, organizational documentation, and operational planning across the chapter's E-board functions

Association for Computing Machinery

May 2026 – Present

Marketing Outreach Chair

Tallahassee, FL

- Spearhead outreach and marketing campaigns to drive student engagement and grow ACM chapter visibility across FSU
- Collaborate with E-board leadership to coordinate events, communications, and recruitment across the organization

TECHNICAL SKILLS

- **Languages, Cloud & DB:** C++, C#, Python, SQL, Java, AWS, Docker, Linux, Git, PostgreSQL, MongoDB, DynamoDB, Redis
- **Networking & Frameworks:** TCP/IP, DNS, Linux Kernel, Windows Server, Juniper Junos, Juniper Mist, Marvis, React, Pandas
- **AI & Tools:** LLM Evaluation, RAG, Multi-Agent Systems, MCP, REST APIs, Claude Code, Amazon Bedrock, Qdrant, Ollama
